### **Coordinated health care: Why it's important for you and your family**

In Louisiana, people who are on Medicaid may choose from several Healthy Louisiana plans. This is to help keep you and your family healthy. Here is what that means for you:

- You or any family members with Medicaid benefits will likely now be part of a health plan. For you that health plan is called AmeriHealth Caritas Louisiana.
- Every person who is an AmeriHealth Caritas Louisiana member will have a primary care provider, or PCP for short. There is no limit to the number of doctor visits.
- Whenever you need a special doctor, a hospital stay or any other service covered under Medicaid, we help you get the care you need.
- We will help you learn about your health and how to stay healthy.
- We will help you find support right in your neighborhood as you work to keep your family well or even improve their health.
- You will have someone you can talk with at any time of the day or night. We can help you find the care you need and answer your health-related questions.

Because you are now a part of AmeriHealth Caritas Louisiana, it's important to understand all you can about how your health plan works. Please keep reading this handbook. It will give you information about how to get the health care you and your family deserve!

## How You Can Help Us

---

### We need you to help us

It is important to remember to:

- Let AmeriHealth Caritas Louisiana and your health care providers know of any changes that may affect your membership, health care needs or benefits. Some examples include, but are not limited to, the following:
  - You are pregnant.
  - You choose a PCP for your new baby.
  - Your address or phone number changes.
  - You or one of your children has other health insurance.
  - You have a special medical condition.
- Keep your benefits up to date by calling AmeriHealth Caritas Louisiana. You may also call the Louisiana Medicaid Customer Service Line at **1-888-342-6207**. You can also go to your regional Medicaid eligibility office or go online to <http://dhh.louisiana.gov/index.cfm/page/262>.

- Let AmeriHealth Caritas Louisiana know if your member ID card has been lost or stolen. Misuse of your member ID card, including loaning, selling, or giving it to others, could lead to loss of your Medicaid benefits and/or legal action.
- Show your member ID card when using health care services.
- Be aware of the benefits and services available through AmeriHealth Caritas Louisiana and how to use them.
- Work with AmeriHealth Caritas Louisiana and our health care providers. This means following the guidelines given to you about AmeriHealth Caritas Louisiana and following your health care provider's instructions about your care. This includes:
  - Making appointments with your health care provider.
  - Canceling your appointment when you cannot make the appointment.
  - Giving your health care provider your correct medical history and information.
  - Calling AmeriHealth Caritas Louisiana when you have questions.
- Treat your health care providers and their staff with respect and dignity.
- Talk with your health care provider to agree on goals for your treatment, to the degree you are able to do so.
- Talk with your health care provider so you can understand your health problems, to the degree you are able to do so.
- Follow the grievance process (see **page 53**) if you have a problem with a health care provider.
- Try to follow a healthy lifestyle, staying away from behaviors that are bad for your health.

If you have any questions about your responsibilities, or for more information, please call Member Services at **1-888-756-0004**.

During this time, you can change plans for any reason. If you choose not to change plans in this 90-day period, you will be locked into that plan until the next annual open enrollment period.

There are situations in which you are allowed to change plans during the 12 month lock-in period. If you have any questions about this, please call Member Services at **1-888-756-0004**, 24 hours a day, seven days a week.

### Getting care, staying healthy

When you join AmeriHealth Caritas Louisiana, you choose a primary care provider (PCP). Think of this as your medical home.

Your PCP is the doctor you regularly see. Your PCP takes care of your health and will help you get care from other health care providers when needed. This is called “coordination of care.” Coordination of care makes sure you get the care you need when you need it. This is why having a medical home is so important.

You can choose the same PCP for your whole family or you can have a different PCP for each family member. There are different kinds of providers who can be PCPs, including:

- Family practice and general practice doctors, who treat adults and children.
- Internal medicine doctors or internists, who treat members older than the age of 18.
- Pediatricians, who treat children from birth to age 21.
- Intensive outpatient services;
  - Medication assisted treatment (medications as well as counseling and other services with sufficient provider capacity to meet the needs of Medicaid beneficiaries in the state);
  - Intensive levels of care in residential and inpatient settings; and
  - Medically supervised withdrawal management.
- Certified registered nurse practitioners. Nurse practitioners are allowed to do many of the same things a doctor can do. With the collaboration of a doctor, the nurse practitioner can be your PCP.
- Some PCPs have trained health care assistants you may see during an appointment, such as:
  - Physician assistants.
  - Nurse practitioners.
  - Medical residents.
  - Nurse midwives.

If you need to find a new PCP, you can go to **[www.amerihealthcaritasla.com](http://www.amerihealthcaritasla.com)** and click on Find a Provider. This will take you to our online Provider Directory where you can find a list of the PCPs in the AmeriHealth Caritas Louisiana network. This directory includes names, addresses, and telephone numbers, as well as professional qualifications. You can also call Member Services if you would like to receive a paper copy of the Provider Directory, or they can help you find a PCP over the phone. You can also go to **[www.myplan.healthy.la.gov](http://www.myplan.healthy.la.gov)** to find the latest Provider Directory.

If you do not choose a PCP for you and your family within 10 days of enrollment, a PCP will be assigned to you. If we need to assign a PCP to you, we will:

- First look at your last PCP to see if he or she is in the AmeriHealth Caritas Louisiana network.
- If we cannot find a PCP in our network whom you had as a PCP before, we will see if any of your family members go to a PCP who would be appropriate for you.
- Finally, we will look in your area to find an appropriate PCP close to you.

For questions about changing your PCP, see the section Changing Your PCP on **page 58** of this handbook. You can change your PCP at any time and for any reason. In some cases, if you have a life-threatening, degenerative or disabling disease or condition, or if you have other special needs, you may be able to choose a specialist as your PCP. If you are pregnant, you may be able to use an obstetrician (OB) as your PCP. Please call Member Services at **1-888-756-0004** to change your PCP, or go to **page 58** for more information.

### Freedom of choice

One of the important features of the Healthy Louisiana program is freedom of choice. There can be many providers in your area to go to for the services you need. As you use these services, it is important you know about the choices you have:

- You can choose a provider who provides the services you need.
- For each level of care, there are providers available to choose from.
- Providers will also talk with you about choices you have.
- You can choose providers who are close to you. This might be important if you currently travel to a provider and you want someone who is closer.
- You can choose providers you want. You may like one provider better than another provider, so you can pick the provider you like best.
- You can choose providers who can relate to you and you are comfortable talking to.
- You can choose providers who speak your language or provide needed interpretation for you.

It is important that you are comfortable with the provider who is helping you. If you are not happy with a provider, you can choose another provider.

To do this, call AmeriHealth Caritas Louisiana and we will talk to you about choices.

AmeriHealth Caritas Louisiana will remind you of your right of choice in several ways and through Member Services when you call. Also, providers will talk to you about choices and can help you decide.

### Your PCP will help you stay healthy

By having regular visits with your PCP as your medical home, he or she will be able to:

- Learn your health history and keep your records up to date.
- Answer questions about your health.
- Give you information about healthy eating and diet.
- Give you the shots and screenings you need.
- Help you get care from other providers, if needed.
- Find problems before they become serious.
- Be a patient advocate.
- Provide Early and Periodic Screening, Diagnosis and Treatment (EPSDT) services for members younger than 21 years of age. See the Care for your child: Early and Periodic Screening, Diagnosis and Treatment (EPSDT) section on **page 33** for more information.
- Provide preventive treatment for conditions like diabetes, high blood pressure, asthma, and allergies.

- Are medically necessary.
- The Food and Drug Administration (FDA) approves.
- Are not excluded by the Healthy Louisiana program.

### Drug formulary (list of covered medicines)

Your drug formulary is the list of medicines covered by AmeriHealth Caritas Louisiana. As of May 1, 2019, Louisiana Medicaid and all Healthy Louisiana plans have moved to a single preferred drug list (PDL). The AmeriHealth Caritas Louisiana Preferred Drug List was replaced with the single PDL. This list helps your health care provider prescribe medicines for you. Brand-name and generic medicines are on the drug formulary. AmeriHealth Caritas Louisiana requires that generic medicines be used, when available. Some medicines also have limits, such as for quantity or age. Some medicines may not be covered until other medicines are tried first. If your doctor thinks you need to have a certain medicine before trying another, your doctor may ask for it through AmeriHealth Caritas Louisiana's prior authorization process. If a certain medicine is not listed on the drug formulary, your doctor may ask for it through AmeriHealth Caritas Louisiana's prior authorization (pre-approval) process. Your doctor may have to provide additional information to support the need for the medicine. For the drug formulary, go to our website at [www.amerihealthcaritasla.com/pharmacy](http://www.amerihealthcaritasla.com/pharmacy).

### Prior authorization (pre-approval)

Some medicines on the single PDL require prior authorization by AmeriHealth Caritas Louisiana. If your doctor writes a prescription for a medicine that requires prior authorization, your doctor will need to send us a prior authorization request form. We will review it and let your doctor know our decision. AmeriHealth Caritas Louisiana will cover the medicine if it is medically necessary. If it is not medically necessary, we will send you a letter that will tell you why. The letter will explain how to make an appeal if you want to do so.

### Copays

AmeriHealth Caritas of Louisiana implements measures to help ensure that copays of Medicaid family members do not exceed five percent of the family income. Copay amounts will stop once the monthly threshold is met. The copays for medication are as follows:

Mental health and substance use services help members with difficulties with mental illness, drug use or alcohol use (substance use, addictive disorders, and drug and alcohol use disorders).

Your mental health and substance use benefits and services depend on your age and the type of Medicaid assistance you get. The following services are part of the AmeriHealth Caritas Louisiana Mental Health and Substance Use program:

These services are planned, regularly scheduled visits to a doctor, counselor or therapist to talk about your mental health. These can include individual, family and group therapy, psychological and/or neuropsychological testing.
- **Mental health and/or substance use inpatient hospitalization:** These services are the most intensive services available. Hospitalization usually occurs when you are at risk of harming yourself or others, experiencing a mental health and/or substance use crisis, when medications need close and continual checking, or when other services tried in the community have not helped to solve the problems that brought you in for service.
- **Gambling treatment help:** If you have a gambling problem or concerns, call or text the Louisiana Problem Gamblers Helpline 1-877-770-STOP (7867) or visit <http://ldh.la.gov/index.cfm/page/2253>.

- **Community based services:** Clearly focused services provided in the community.
  - **Community psychiatric support and treatment (CPST):** Counseling services that are provided to you in your home, work or school.
  - **Multi-system therapy (MST):** This family-based service is for members 12 – 17 years of age. It provides home and community mental health and substance use services to help keep the member in the home. These services focus on providing a more safe, secure, and enhanced quality of life for the family.
  - **Peer support services.** Peer support services (PSS) are evidence-based behavioral health services that consist of a qualified peer support provider, who assists members with their recovery from mental illness and/or substance use. The PSS are provided by Certified Peer Support Specialists (CPSS), who are individuals with personal lived experience with recovery from behavioral health conditions and who are successfully navigating the behavioral health services system.  
  
PSS are person-centered and recovery focused. PSS are face-to-face interventions with the member present. PSS are designed to uphold the principles of individual choice and active involvement of members in their own recovery process.
  - **Family functional therapy (FFT):**

## Getting Care for Your Family

---

Women who have already had a preterm birth have a 30% – 40% chance of having another baby born too early unless steps are taken to reduce that risk. Preterm birth is when a baby is born before 37 completed weeks of pregnancy. Babies who are born too early can have health problems, such as brain damage, asthma and vision problems.

### Postpartum (after birth)

If you are in a postpartum period, please make sure you:

- Call your OB to make an appointment for your postpartum checkup. Try to get an appointment within 3 to 7 weeks after you have your baby, unless your doctor wants to see you sooner.
- Call AmeriHealth Caritas Louisiana's Member Services at **1-888-756-0004** to let us know the baby's name and the name of your baby's doctor. We can help you choose a doctor for your baby if you have not already chosen one.
- Call the baby's doctor to make an appointment for your baby. Your baby should have an appointment when he or she is 2 to 4 weeks old, unless the doctor wants to see your baby sooner.

Sometimes women feel down or sad after having a baby. This is normal. Please ask yourself these 2 questions:

- During the past month, have I often been bothered by feeling down, depressed or hopeless?
- During the past month, have I often had little interest or pleasure in doing things?

If you answered "yes" to one or both of these questions, please call our Bright Start department using our toll-free number at **1-888-913-0327**. We want to help you get the care you need.

### Bright Start and the NICU (neonatal intensive care unit) Graduate program

In addition to prenatal care management, the Bright Start department also offers care management to you after your baby is discharged from the hospital if he or she has been in the NICU.

We refer to it as the Bright Start/NICU Graduate program. This program is at no cost for mothers who may need extra help during their baby's first year of life.

Effective **February 1, 2022**, we will cover human milk storage bags for lactating mothers with the following:

- Prescription signed by prescribing physician.
- Documentation that they are lactating (This can be included on the prescription or submitted separately).

Storage bags will be limited to 100 bags per month.

### Care for your child: Early and Periodic Screening, Diagnosis and Treatment (EPSDT)

AmeriHealth Caritas Louisiana cares for our members younger than 21 years of age through a special health care program called Early and Periodic Screening, Diagnosis and Treatment (EPSDT).

This program helps us make sure your child gets the medical care he or she needs to help prevent and/or find out about childhood diseases and illnesses early. We have care managers in our EPSDT department that can help you with questions you may have. Please call us at **1-888-643-0005**.

Your child can see a pediatrician, a family practice doctor, a certified registered nurse practitioner (CRNP) or specialist if the child's condition requires it. The provider you choose for your child will be your child's PCP. To keep your child healthy, you need to make regular appointments with your child's PCP. This is called a well-child visit and is important at every age. This is different from a visit to the PCP when your child is sick.

At a well-child visit, the PCP will give your child an exam. What the PCP does during the exam depends on the age of your child. The PCP will ask questions, order tests and check your child's growth based on how old your child is.

At any given well-child visit, your child's PCP can provide the following services:

- A complete, unclothed physical exam.
- Immunizations (shots).
- Lab tests, including blood tests, lead-level screening and urine tests.
- Vision and hearing tests.
- Dental screen.
- Growth measurements.
- Blood pressure check.
- Health and safety education.
- Complete history of your child's health and development.
- Check body mass index (BMI).
- Track your child's development and eating habits.
- Referral to a specialist, when medically necessary.

If you have questions or want to find out more about this program, call the EPSDT department at **1-888-643-0005**.

### EPSDT expanded services

EPSDT has other services for children with special health care needs. These services are called "expanded services." If your child has a special health care need, he or she may be eligible for these services. Talk to your child's PCP. The PCP can talk to a care manager about getting approval for these expanded services.

### LINKS notice

We would like to inform you of AmeriHealth Caritas Louisiana's participation in the Louisiana Immunization Network for Kids Statewide (LINKS) through the Louisiana Department of Health. Through this program, your immunization data will be provided to AmeriHealth Caritas Louisiana to ensure coordination of care. If you have any questions, please contact Member Services at **1-888-756-0004**.

## Special Programs

---

These programs help you better understand your condition. A care manager registered nurse (RN) helps coordinate your health care and sends you information about your condition. If you have extra needs, your care manager will work with you and your PCP by telephone based on your individual health needs. You will set and work on personal goals to improve your health and quality of life. The care manager RN will assist you with understanding your medications, treatments, physician instructions, locate community resources, provide individualized education about your disease and help to navigate the health system.

Your responsibility when engaging in the Care Management special programs:

- Update contact information (especially phone number and address) as soon as possible.
- Follow the individualized plan of care.
- Communicate any changes in plan of care.

As an AmeriHealth Caritas Louisiana member, you have the right to say you do not want to be a part of one of these programs. You can tell us on the phone or in writing. If you do not want to be a part of one of these programs, it will not change your AmeriHealth Caritas Louisiana benefits in any way. It also will not change the way you are treated by AmeriHealth Caritas Louisiana and our providers or the Louisiana Department of Health.

If you have any questions about our special programs, or do not want to be a part of these programs, call the Care Coordination program at **1-888-643-0005** or write to:

**Care Coordination Program**  
**AmeriHealth Caritas Louisiana**

You can also send a fax to **1-877-724-4838**.

### Asthma

Asthma is a long-term illness that makes the airways in your lungs swollen or blocked. When you have asthma, the tubes that carry air in and out of your lungs can become narrow or filled with mucus. This makes it hard to breathe. Certain triggers can cause this to happen. Triggers can include dust, perfume, cold air, smoke, pollen and pets.

Without the right care, asthma can:

- Make it hard for you to breathe.
- Stop you from playing sports, dancing, and being a part of other physical activities.
- Make you miss work or school.
- Be dangerous to your life.

Asthma can be controlled. The Asthma program will help you learn about the medicines and equipment that help keep asthma in control.

### Cardiovascular programs

#### Heart disease

Heart disease, also called coronary artery disease, is a long-term illness that affects the coronary arteries in the heart. With heart disease, cholesterol builds up on the walls of the arteries. The arteries become narrowed and blocked. This slows the blood flow to the heart muscle.

Without the right care, heart disease can:

- Cause chest pressure or pain with activity or rest.
- Cause a heart attack.
- Cause a stroke.
- Cause heart failure.
- Be very dangerous to your life.

The Heart Disease program will help you learn about your condition. The program will explain why it is important to check your blood pressure and cholesterol and why you need to eat healthy and exercise.

#### Heart failure

Heart failure is a long-term illness that affects the ability of your heart to pump blood. When you have heart failure, your heart muscle is weak and fluid builds up. Without the right care, heart failure can:

- Make your ankles swell.
- Make it difficult for you to breathe.
- Make your heart work harder.
- Cause chest pressure or pain with activity, or even when you rest.
- Lower your energy level.
- Be very dangerous to your life.

The Heart Failure program will help you learn about your condition and help you understand the medicines you are taking. The program will help explain why it is important to weigh yourself and avoid foods that can make you retain fluids (get puffy feet, or “hold water”).

## Getting Care

---

### We pay attention to your care

AmeriHealth Caritas Louisiana's licensed doctors and nurses monitor the services given to all members. They also make decisions about medically necessary care and services. They make these decisions using:

- Nationally accepted clinical guidelines approved by the Louisiana Department of Health.
- All of the medical information they know.
- Your Medicaid benefits.
- Your personal medical needs.

AmeriHealth Caritas Louisiana does not reward health care providers for denying, limiting or delaying benefits or health care services. We also do not give incentives to our staff making decisions about medically necessary services or benefits to provide less health care coverage and services.

### Dedication to quality care

AmeriHealth Caritas Louisiana is always looking for new ways to improve your health and serve you better. We look at new treatments and new technologies to see if they will help you and your family. We also send information to our providers to help them make decisions about your care. These guidelines are taken from national and regional health care associations, task forces and medical research. For a copy of AmeriHealth Caritas Louisiana's preventive health and clinical practice guidelines, call Member Services at **1-888-756-0004 (TTY 1-866-428-7588)**. Member Services is available 24 hours a day, seven days a week. You can also go to [www.amerihhealthcaritasla.com](http://www.amerihhealthcaritasla.com).

### We want to hear from you — Member Advisory Council (MAC)

AmeriHealth Caritas Louisiana's Member Advisory Council (MAC) gives you the opportunity to share your thoughts and ideas with us. Members, their family members or other authorized representatives, and member advocates can provide feedback on the services they have received. You can ask questions or share concerns. The MAC meets a few times a year at locations across the state. To learn more or to join us, call Member Services at **1-888-756-0004 (TTY: 1-866-428-7588)**.

Providers in AmeriHealth Caritas Louisiana's network are encouraged to give quality care to you and your family. We monitor if the health care and services are being used in the right way, and if they are appropriate and needed. One of the ways we measure this is through a tool called the Healthcare Effectiveness Data and Information Set (HEDIS®). HEDIS measures how well AmeriHealth Caritas Louisiana and doctors in the plan network are helping you improve and/or maintain your health. We also have member satisfaction surveys every year, which are publicly reported. We also give member education on health-related issues.

### Medical necessity

AmeriHealth Caritas Louisiana services and benefits are medically necessary as defined by Medicaid.

To be considered medically necessary, services must be both of the following:

- Deemed reasonably necessary to diagnose, correct, cure, alleviate, or prevent the worsening of a condition or conditions that endanger life, cause suffering or pain, or have resulted or will result in a handicap, physical deformity, or malfunction.
- Those for which no equally effective, more conservative, and less costly course of treatment is available and suitable for the recipient.

## Prior Authorization

---

This type of service must be specific to each person. It must also be linked to an injury or illness. The treatment should not be more or less than what is needed.

Services that are experimental, non-FDA approved, investigational, or cosmetic are specifically excluded from Medicaid coverage and will be deemed “not medically necessary.” The Medicaid Director, in consultation with the Medicaid Medical Director, may consider authorizing services at his discretion on a case-by-case basis.

If you need help understanding any of this information, please call Member Services at **1-888-756-0004**.

### Referrals

AmeriHealth Caritas Louisiana does not require a referral from your PCP to see a network specialist. However, we encourage you to coordinate specialist care with your PCP. Some services and procedures need to be approved as “medically necessary” by AmeriHealth Caritas Louisiana before your PCP or other health care provider can provide the services. This process is called “prior authorization.”

### Nonparticipating health care professionals and providers

There may be times when your PCP needs to give you a referral to a doctor who is not part of the AmeriHealth Caritas Louisiana network. When that happens, your PCP will need to get approval ahead of time (prior authorization). The prior authorization process is described below.

### Prior authorization process

1. Your PCP or other health care provider must give AmeriHealth Caritas Louisiana medical information to show that the service or medication is medically necessary.
2. AmeriHealth Caritas Louisiana nurses review the medical information. The nurses use clinical guidelines approved by the Louisiana Department of Health to see if the service is medically necessary.
3. If the request cannot be approved by an AmeriHealth Caritas Louisiana nurse, an AmeriHealth Caritas Louisiana doctor will review the request.
4. If the request is approved, we will contact your health care provider.
5. If the request is not approved, a letter will be sent to you and your health care provider telling you the reason for the decision.
6. If you disagree with the decision, you may file a member appeal. See **page 54** for information about grievances, appeals, and state fair hearings.
7. You may also call Member Services for help in filing a grievance, appeal, or state fair hearing.

Please talk to your doctor about the services you need and if they will need prior authorization.

As an AmeriHealth Caritas Louisiana member, you are not responsible to pay for medically necessary, covered services.

You may have to pay when any of the following applies:

- You receive a service from a provider who is not in the AmeriHealth Caritas Louisiana network and prior authorization was not given to see this provider (except for emergency services).
- The service provided is not covered by AmeriHealth Caritas Louisiana and your provider told you that it is not covered before you received the service. Some of the services that are not covered by the Healthy Louisiana program and/or AmeriHealth Caritas Louisiana include, but are not limited to, the following:

## Prior Authorization

---

- Services that are not medically necessary.
- Services provided by a health care provider not in the AmeriHealth Caritas Louisiana network, except for:
  - Emergency services (You have the right to obtain emergency services at any hospital or other emergency facility.)
  - Family planning services.
  - When otherwise approved by AmeriHealth Caritas Louisiana.
- Services that require authorization by AmeriHealth Caritas Louisiana, but are not approved by AmeriHealth Caritas Louisiana.
- Elective abortions.
- Elective cosmetic surgery.
- Experimental or investigational drugs, procedures and equipment, unless approved by the secretary of the Louisiana Department of Health.

**This is not a complete list of non-covered services.**

AmeriHealth Caritas Louisiana may not cover all of your health care expenses. You may be responsible to pay for services if you have been told ahead of time that AmeriHealth Caritas Louisiana does not cover the services. It is important to check with your PCP or AmeriHealth Caritas Louisiana Member Services to find out which health care services are covered.

## New technology

AmeriHealth Caritas Louisiana wants members to have safe and effective care. AmeriHealth Caritas Louisiana looks at new medical technology, new drugs and new uses for existing technology throughout the year. The new technology may be approved when it is proven to be at least as medically safe and useful as existing technology. AmeriHealth Caritas Louisiana uses nationally recognized guidelines from scientific journals and the Centers for Medicare & Medicaid Services (CMS). AmeriHealth Caritas Louisiana also has a Quality of Clinical Care Committee that will review individual technology and drug requests from members and AmeriHealth Caritas Louisiana providers. The Quality of Clinical Care Committee or chief medical officer can decide to cover the new technology and drug. If AmeriHealth Caritas Louisiana adopts the new technology or drug, you and your provider(s) will be told about the change.

### Exception process

For requests beyond the benefit limit, a prior authorization must be submitted by your PCP, along with supporting clinical information.

### If you have other health insurance

If you have other medical insurance, all your medical insurance companies need to know. You are responsible for giving that information to AmeriHealth Caritas Louisiana and your health care providers.

### Other sources of payment

As an AmeriHealth Caritas Louisiana member, you are responsible for letting us know if there are other possible sources of payment for your medical care. You need to let us know immediately if:

- You have a workers' compensation claim.
- You have a personal injury or medical malpractice suit.
- You have been involved in an automobile accident.
- Medicaid is the payer of last resort. We must be told when there could be another source of payment for your medical care.

---

Call Member Services at **1-888-756-0004** to give us your other medical insurance information. Medicaid is the payer of last resort. This means that if you have other medical insurance, your other medical insurance must be billed first. AmeriHealth Caritas Louisiana can only be billed for the amount that your other medical insurance is not required to pay. Please remember you are required to show all of your medical cards at each doctor's office and/or pharmacy visit. This helps make sure your health care bills get paid

### Voluntary disenrollment

#### When you want to change your health plan

You may decide you want to leave AmeriHealth Caritas Louisiana. When you enroll with AmeriHealth Caritas Louisiana, you will have 90 days from the date postmarked on your Notice of Enrollment to change your plan. You can change plans for any reason during this 90-day period. After the initial 90-day period, you will be locked into AmeriHealth Caritas Louisiana until the next annual open enrollment period.

During the 12-month lock-in time, there are reasons for which you are allowed to change plans. Those reasons include:

- The MCO does not, because of moral or religious objections, cover the service the member seeks;
- The member needs related services to be performed at the same time, not all related services are available within the MCO and the member's PCP or another provider determines that receiving the services separately would subject the member to unnecessary risk;
- The contract between the MCO and LDH is terminated;
- Poor quality of care;
- Lack of access to MCO core benefits and services covered under the contract;
- Documented lack of access within the MCO to providers experienced in dealing with the member's healthcare needs;
- The member's active specialized behavioral health provider ceases to contract with the MCO;
- Member moves out of the MCO's service area, i.e. out of state; or

Any other reason deemed to be valid by LDH and/or its agent.

### Summary Notice of Privacy Practices

This summary describes how medical information about you may be used and shared with others. It also explains how you can get a copy of this information. Please read carefully.

AmeriHealth Caritas Louisiana is required by law to protect the privacy of your health information. AmeriHealth Caritas Louisiana would like to tell you about the policies governing your protected health information (PHI). Health care providers use members' medical information during treatment, as well as during payment processing. AmeriHealth Caritas Louisiana has to use and disclose your PHI to help you get your health care services, and to pay our providers for giving you care. Many steps are taken to make sure this information is protected.

AmeriHealth Caritas Louisiana is allowed to use or share your medical information without your written permission for the reasons outlined below:

- Treatment of the patient; for example, when health care providers talk about a patient's treatment.
- Making a payment; for example, when our claims processing department uses medical information to pay providers.
- Health care operations; for example, when we identify members with certain chronic illnesses so we can send treatment information to them or their providers.
- Legal requirements.
- Public health activities.
- Reporting abuse.
- Law enforcement.
- Research.
- Providing information to you.
- Avoiding serious threat.
- Providing information to family and friends with your verbal consent or in other limited circumstances.

Sometimes we are required to get your written authorization so we can use or share your PHI. Your authorization letting us use or share your PHI may be canceled at any time unless the information has already been shared.

You may get a copy of your PHI in our records. You may also get a description of some ways we use your PHI.

For a copy of the full Notice of Privacy Practices and/or for any questions or comments regarding PHI, please call Member Services at **1-888-756-0004 (TTY 1-866-428-7588)**. You can also go to our website at **[www.amerihealthcaritasla.com/member/eng/info/index.aspx](http://www.amerihealthcaritasla.com/member/eng/info/index.aspx)**.

## Advance Directives

---

### Advance directives

An advance directive is a legal document that protects your rights to refuse medical, surgical or mental health treatment you do not want, or to request treatment you do want, if you lose the ability to make those decisions yourself. An advance directive can also allow you to designate a representative to make health care decisions for you in the event you are unable to do so. Advance directives are the way you make these choices known to your family and health care providers.

This is an important matter. Before deciding if you want an advance directive, you should talk to your spouse, family, close friends, doctors and attorney. If you make an advance directive, be sure to give copies of it to your doctors and family. AmeriHealth Caritas Louisiana has no limit on starting advance directives. AmeriHealth Caritas Louisiana will honor your advance directive to the fullest extent allowed by law. We will let you know within 90 days of any changes in Louisiana's law.

Your MCO cannot discriminate against you for getting an advance directive. Having an advance directive will not affect your ability to get care.

You can get an advance directive form from your PCP, or you can find sample forms and information at [agingwithdignity.org](http://agingwithdignity.org).

A member can file complaints about failure to comply with advance directives with the Office of Health Standards at **1-225-342-0138**.

Advance directives available in Louisiana are described below.

### Do not resuscitate (DNR) order

You can request your physician to enter a DNR into your medical records at any time so that your health care providers will not try to revive you if you have a cardiac arrest (your heart stops beating) or a respiratory arrest (you stop breathing).

### Living will (also known as a declaration)

A living will is different from a DNR order. A living will is a written record of what types of medical care you would or would not want to have if you are terminally or irreversibly ill. You must sign a written declaration in the presence of 2 witnesses any time after the terminal or irreversible condition is diagnosed. If you change your mind after you have made a living will, you can cancel it or make changes to it. Only adults are permitted to make a living will. A living will covers all types of life-sustaining treatments and procedures only after you have developed a terminal and irreversible condition, while a DNR order may be entered into your medical records at any time.

Although Louisiana law does not require you to record your living will, you should ensure that all of your health care providers have a copy. However, you can register your living will with the secretary of state if you choose to do so. You can get additional information regarding registering your living will with the Office of the Secretary of State at **1-225-922-0309**.

### Durable power of attorney for health care (DPAHC)

This is a legal document that gives the name of the person who can make health care decisions in case you cannot make them for yourself. A DPAHC only covers a situation where you are temporarily or permanently unable to make your own health care decisions. The person you choose to represent you does not have to be a lawyer. To avoid a potential conflict of interest, it is recommended not to appoint a treating health care provider as your representative. If you have a DPAHC and later become able to make your own health care decisions, then your representative's authority ends and your consent is required for all health care decisions.

## Fraud, Waste, and Abuse

---

- After you have filed your appeal, you can still send us anything related to your appeal. You and your representative may also review the case file, including medical records, and any other documents and records that are being reviewed during the process.
- You may need more time to give us information about your appeal. You may ask for more time, up to 14 calendar days. This request must be in writing and sent to the AmeriHealth Caritas Louisiana appeals coordinator.

### To continue getting services

If you were getting authorized services that are now denied and you wish to keep getting these services, you must ask for continued services in writing within 10 calendar days of the mail date on the denial letter. Your request must clearly state that you wish to keep getting the services. You can keep getting services until the appeal decision is made

or until the time period or service limits of the service have been met, whichever is sooner.

If the appeal decision agrees with AmeriHealth Caritas Louisiana's denial, you may have to pay for the services provided while the appeal was pending.

### Appeal decision

Within 30 calendar days after we get your appeal request, we will send you a letter with our decision.

If we feel we cannot give you a fair decision within the 30-calendar-day time period, we may add up to 14 calendar days to our review time. We will send you a letter to let you know this.

If you disagree with our appeal decision, you may ask for a state fair hearing with the Department of Administrative Law (DAL) within 120 calendar days (from the date on this letter) of receiving AmeriHealth Caritas Louisiana's appeal decision letter.

### Expedited (faster) appeals

- You, your provider or your authorized representative can ask for an expedited appeal review if waiting 30 calendar days for the standard appeal process to be completed could seriously affect your life, health, or ability to attain, maintain or regain maximum function. Expedited appeal reviews may be asked for verbally or in writing. No additional member follow-up is required.
- AmeriHealth Caritas Louisiana will complete all expedited appeals not more than 72 hours after our receipt of the request. AmeriHealth Caritas Louisiana will give an initial oral decision for expedited appeals within 72 hours of our receipt of the request and a written notification no later than 3 calendar days after the initial oral notification.
- If AmeriHealth Caritas Louisiana or your provider does not believe that waiting 30 days for the standard appeal process to be completed will seriously affect your life, health or ability to attain, maintain or regain maximum function, we will:
  - Call you right away and send you a letter within 2 calendar days to let you know that your appeal will not be reviewed as an expedited appeal.
  - Begin to review your appeal under the standard appeal process and make a decision about your appeal within 30 calendar days.

### Impartiality and appropriate expertise

For both member grievances and appeals, an AmeriHealth Caritas Louisiana employee will be appointed to review your case. The employee will be someone who was not involved in the prior adverse decision and does not work for the person who made the prior decision.

## Fraud, Waste, and Abuse

---

For medical appeals, a physician or other appropriate clinical peer must evaluate medical necessity decisions for adverse appeal decisions. For appeals involving specialist care, input to the appeal determination will be obtained from a clinician in the same or similar specialty as the care being requested.

### Asking for a state fair hearing with the Division of Administrative Law (DAL)

You may ask for a state fair hearing with the DAL if you do not agree with an AmeriHealth Caritas Louisiana appeal decision. You must exhaust the AmeriHealth Caritas Louisiana appeals process

before you ask for a state fair hearing. You may ask for a state fair hearing with DAL within 120 calendar days (from the date on the letter) of receiving AmeriHealth Caritas Louisiana's appeal decision letter. If the plan does not make a timely decision, you can ask for a state fair hearing. You may request a state fair hearing by mail, phone, fax, or online.

A state fair hearing is not a part of AmeriHealth Caritas Louisiana in any way. In a state fair hearing, the DAL judge will determine whether services must be provided. AmeriHealth Caritas Louisiana must follow DAL's hearing decision, as approved by the Secretary of LDH. You will not lose your AmeriHealth Caritas Louisiana membership for filing a state fair hearing request with the DAL.

You may mail your request for a state fair hearing:

**Division of Administrative Law**  
**P.O. Box 4189**  
**Baton Rouge, LA 70821-4189**

You may fax your request for a state fair hearing to **1-225-219-9823**.

You may phone in your request for a state fair hearing to **1-225-342-5800**.

You may submit your request online for a state fair hearing to [http://www.adminlaw.state.la.us/AdminLaw/Appeal\\_Request\\_Form.aspx](http://www.adminlaw.state.la.us/AdminLaw/Appeal_Request_Form.aspx).

You have the right to continue benefits while the state fair hearing is pending. You must ask for this within 10 calendar days from the date of the letter of the AmeriHealth Caritas Louisiana appeal decision letter.

You may call AmeriHealth Caritas Louisiana and ask that your benefits continue. The toll-free number is **1-888-756-0004**. Please note that you may have to pay the costs of these services. This could happen if the DAL agrees with the denial by AmeriHealth Caritas Louisiana. Unfortunately, there may be times when you see fraud, waste, or abuse (also known as FWA). If you have knowledge of member or provider FWA, please report the circumstances to AmeriHealth Caritas Louisiana or the LDH as outlined below. You do not have to give your name but, if you do, you will not be identified to the member or provider you are reporting.

### What are fraud, waste, and abuse?

**Fraud** is a false statement from someone who knows that the statement is false.

- **Example:** Sam's doctor provides a service to him that he knows won't be covered. Sam's doctor says that he provided a covered service instead.

**Waste** is when someone uses a service more than they need to.

- **Example:** Rachel asks 2 different doctors to give her the same medicine. She now has more medicine than she needs.

**Abuse** may not be intentional. Abuse can lead to extra health care costs or losses to the health care system.

- **Example:** Jonathan's doctor sends him to get an X-ray when he does not really need one.

## Fraud, Waste, and Abuse

---

**Remember: Report health care fraud to the AmeriHealth Caritas Louisiana Fraud Tip Hotline at 1-866-833-9718.**

### **Why should I care about fraud, waste, and abuse?**

Fraud, waste, and abuse affect both health plan members and health care providers. They can:

- Keep you from getting medical services.
- Limit your health care benefits.
- Raise your taxes.
- Keep providers from being paid for services.
- Contribute to rising health care costs.

In addition, health care fraud is a real crime with real consequences. It could lead to fines or even jail time.

You can report fraud and abuse by calling the AmeriHealth Caritas Louisiana Hotline number at **1-866-833-9718** or **[fraudtip@amerihealthcaritas.com](mailto:fraudtip@amerihealthcaritas.com)**. You can also report fraud and abuse to the Louisiana Department of Health through any of the following:

You may report provider or recipient FWA to the LDH via their website, **<http://ldh.louisiana.gov/index.cfm/page/219>**.

You may also report FWA to LDH via the following:

## Special Situations

---

### Continued care

Members new to AmeriHealth Caritas Louisiana may be able to see a provider who is not in the system. Look at the list that follows to see if you meet the rules for continuing care:

- Are you pregnant and meet the following?
  - You are a new AmeriHealth Caritas Louisiana member.
  - You are getting covered pregnancy care and/or other care.
  - You were getting this care before joining AmeriHealth Caritas Louisiana.
- You can keep the same provider for the first 30 days of enrollment with AmeriHealth Caritas Louisiana even if this provider is not in our network.
  - You do not need prior approval.

---

### Note

- After 30 days, you may need to get prior approval.
  - If the service is found to be medically necessary, you may continue to get the service for an additional 60 days unless you can be safely assigned to an in-network AmeriHealth Caritas Louisiana provider before the 60 days are up.
  - Members who are approved for continued care will not have to pay for the cost of the services.
- 

### Changing your primary care provider (PCP)

You may choose a health plan during the Medicaid application process. Your selection will be confirmed in your AmeriHealth Caritas Louisiana welcome package. If you do not choose a PCP during Medicaid enrollment or within 10 business days of becoming an AmeriHealth Caritas Louisiana member, you will be assigned a PCP you or your family has previously seen. If there is no PCP history, you will be assigned to a PCP based on your home address, age, gender and language preferences.

If you move or want to change your PCP for any reason, we can help you choose another PCP in your area.

#### How to change your PCP

If you have access to the Internet:

- Go to [www.amerithealthcaritasla.com](http://www.amerithealthcaritasla.com) and click on Find a Provider to choose a provider in your area.
- Call Member Services at **1-888-756-0004** to make the change.

If you do not have access to the internet:

- Call Member Services at **1-888-756-0004**. We will help you find a PCP in your area.
- We can also send you our Provider Directory.

Once you change your PCP:

- We will ask why you want to change your PCP. This will help us learn about any possible problems with the services given by PCPs in our network.

## Special Situations

---

- Your PCP choice will be effective immediately. You will get a new AmeriHealth Caritas Louisiana member ID card within 2 weeks. Destroy your old member ID card once you have the new card.

### Other health care providers

AmeriHealth Caritas Louisiana does not require a referral from your PCP to see a network specialist. For more information on your Freedom of Choice, see **page 16**. For assistance in finding a specialist, call Member Services at **1-888-756-0004**.

### If your PCP is leaving the AmeriHealth Caritas Louisiana network

There are times when PCPs leave AmeriHealth Caritas Louisiana. There are also times when a PCP may not be able to be a PCP anymore. When we find this out, we will let you know so you can choose a new PCP. We will also let you know what to do if you need emergency or urgent care. You will have at least 10 days to choose a new AmeriHealth Caritas Louisiana PCP. Follow the steps on **page 58** to change your PCP.

If you do not choose a new PCP by the date we tell you, we will choose a PCP for you. We will send you a letter with the name of your new PCP. You will also get a new member ID card in a separate mailing. If you do not want the PCP we have chosen for you, you can change your PCP at any time by calling Member Services at **1-888-756-0004**.

You may be able to stay with your doctor for a period of time if you are pregnant, in need of postpartum care, or if you have an acute or chronic condition that you have been receiving treatment for within the last six months. If these special situations apply to you, you may ask for continuing care by calling Member Services at **1-888-756-0004 (TTY 1-866-428-7588)**, 24 hours a day, seven days a week.

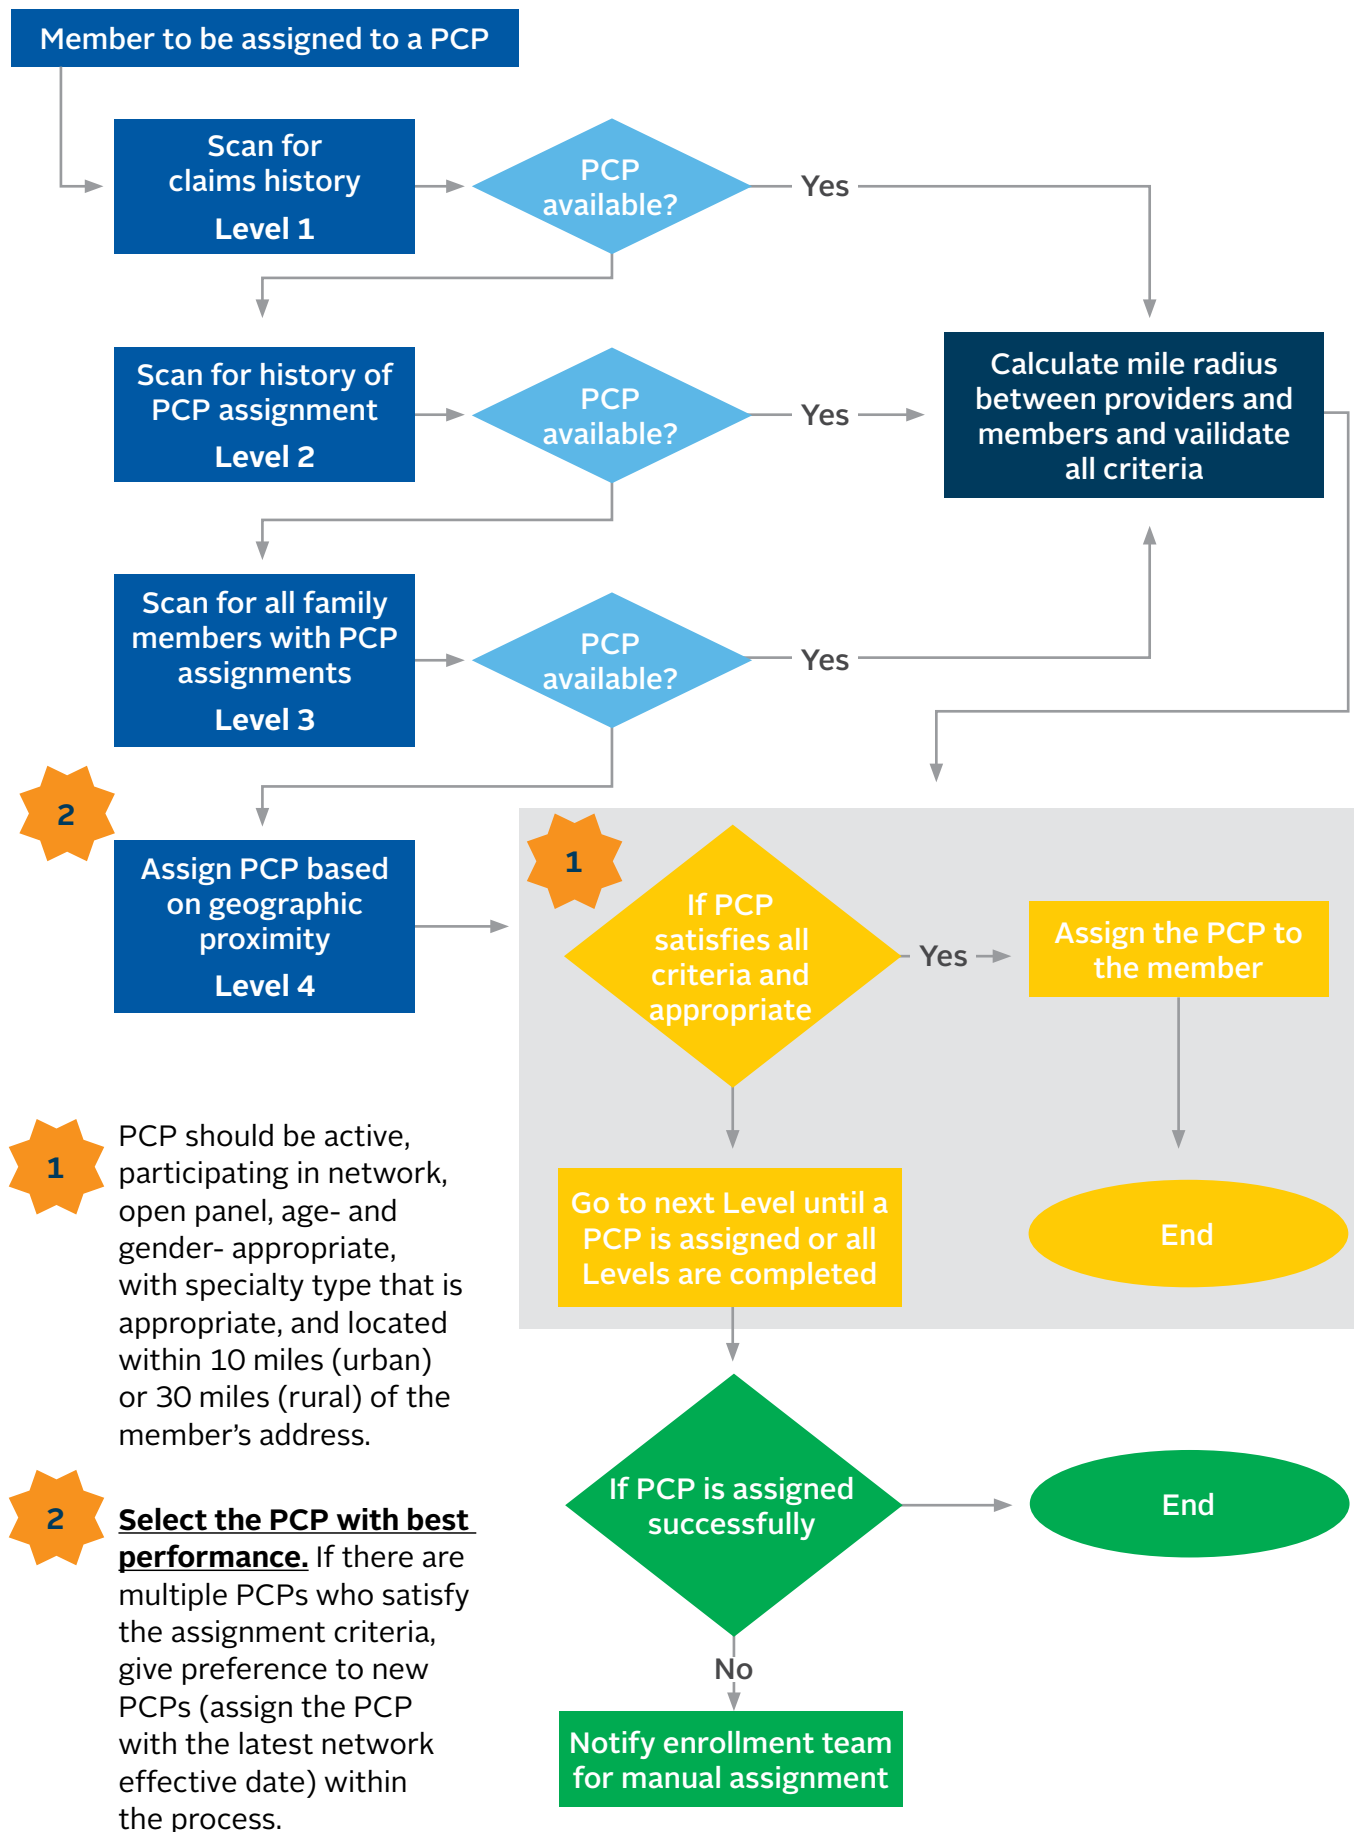

### If AmeriHealth Caritas Louisiana leaves the Louisiana Medicaid system

If AmeriHealth Caritas Louisiana can no longer provide managed care in Louisiana, we will help. AmeriHealth Caritas Louisiana must make sure that you as a member continue to receive services without delay as required by the Code of Federal Regulations, Title 42 Public Health, Section 438.62.

### Discrimination is against the law

AmeriHealth Caritas Louisiana complies with applicable federal civil rights laws and does not discriminate against members on the basis of their health history, health status, need for health care services or adverse change in health status; or on the basis of age, religious belief, race, color, national origin, sex, sexual orientation, gender identity, disability, or ability to pay. We do not use any policy or practice that has the effect of discriminating on the basis of age, religious belief, race, color, national origin, sex, sexual orientation, gender identity, disability, or ability to pay. This applies to enrollment, re-enrollment, or disenrollment. AmeriHealth Caritas Louisiana shall be subject to monetary penalties and other sanctions if it is determined by LDH that AmeriHealth Caritas Louisiana has requested disenrollment for any of these reasons.
